

INTERNAL SERVICE FUNDS

CORRECTIONAL INDUSTRIES REVOLVING FUND

Authorized by MCL Section 800.325, this fund accounts for the financial transactions of a manufacturing and processing industry, employing inmates incarcerated in Michigan's correctional institutions. Michigan Compiled Laws Section 800.326 expanded the fund's sales market to include institutions of this or any other state or political subdivision thereof, the federal government or its agencies, a foreign government or agencies of a foreign government, a private vendor that operates the youth correctional facility, and certain tax-exempt organizations.

Executive Order 1992-13 stipulates that the fund repay the General Fund for the cost of building and equipping prison factories included as part of new prison construction. The costs of buildings and equipment are to be repaid over 30 years and 10 years respectively. The repayment provisions, as stipulated in Executive Order 1992-13, resulted in no required payment in fiscal year 2006.

MOTOR TRANSPORT FUND

This fund was created by MCL Section 18.1213 to provide vehicle and travel services for State agencies. Activities include lease, purchase, replacement, and maintenance of automotive equipment. Vehicles are available to agencies on a permanently assigned basis or through the motor pool for short-term usage and are furnished to agencies at a rate sufficient to cover all costs of operation and maintenance. Agencies are billed on a monthly basis for services rendered.

OFFICE SERVICES REVOLVING FUND

Created in 1952, this fund operates under MCL Section 18.1269 to provide services in the following areas: printing, reproduction, microfilm, mailing, distribution of federal and state surplus property, and materials management. The cost of the services or supplies is charged to user departments and agencies. Resultant revenue is credited to the revolving fund and is used for administration and operation of the program, including purchase of necessary equipment. During fiscal year 2002, the use of the fund was expanded to account for the purchase of bulk gas used by State agencies.

INFORMATION TECHNOLOGY FUND

This fund was created by administrative decision to provide telecommunication and information technology services for State agencies. User agencies are billed for the cost of such services.

During fiscal year 2002, the use of this fund was expanded to account for all information technology activities of the executive branch as prescribed in Executive Order 2001-03.

RISK MANAGEMENT FUND

Administratively established, this fund accounts for certain centralized risk management functions performed by the Department of Management and Budget for other State agencies. Currently, the fund has assumed a degree of risk for the automotive liability. This activity and administrative functions are recorded as operating activity of the fund. An activity of the fund for which the fund assumes no risk is the centralized processing of workers' compensation payments for State agencies. Workers' compensation long-term claim liabilities are recorded in the Government-wide Financial Statements and the related current year workers' compensation expenditures are recorded in the applicable funds.

STATE SPONSORED GROUP INSURANCE FUND

This fund was administratively established to reflect the financial transactions of the State sponsored insurance plans that provide health, long-term disability, life, vision, and dental coverage for participating employees and retirees. The plans' funding methods range from those where the State is fully self-insured to those where an outside carrier assumes partial risk on a contracted basis. A note to the Government-wide Financial Statements entitled "Risk Management" provides additional information about this fund.

The amounts reflected as amounts due from other funds include reclassifications of other funds' negative balances in the common cash pool.
